Realizing Innovation and Opportunity in WIOA

A Playbook for Creating Effective State Plans
Our Vision

We seek an America that grows its economy by investing in its people, so that every worker and every industry has the skills to compete and prosper.
Our Mission

• We **organize** broad-based coalitions seeking to raise the skills of America’s workers across a range of industries.

• We **advocate** for public policies that invest in what works, as informed by our members’ real-world expertise.

• And we **communicate** these goals to an American public seeking a vision for a strong U.S. economy that allows everyone to be part of its success.

Early Implementation? (March 1, 2015? July 1, 2015? Partial?)

A question of balance

• Time for broad and authentic engagement?

• Time to create the plan the state wants?

• Poll Question on Early Implementation

Job-Driven Investments:

• Aimed at closing the middle-skill gap
• Aligned with jobs in the labor market:
  – Incumbent worker training
  – On-the-job training
  – Apprenticeship
  – Other work-based learning
CALIFORNIA WORKFORCE INVESTMENT BOARD – IMPLEMENTING THE STATE PLAN

Amy Wallace
Assistant Director for Workforce Innovation
The Future of Workforce Development

**California’s Challenge…**
- Diverse, mobile population
- Changing nature of work
- Technology-based solutions… and problems
- Scale of Need
- Pace of Change

**Opportunity for Innovation!**
- Classroom to career connection
- *True* public-private partnerships
- Locally delivered solutions to regionally defined challenges
- Flexible funding tied to outcomes, not outputs
- Creating the space- and the incentive- to take risks
California’s Workforce System

- 49 local WIBs, focused on a variety of demand and priority sectors
- 112 Community Colleges, 467 K-12 Career Partnership Academies, 74 ROCPs, and countless other CTE and Linked Learning efforts
- Education, training, and jobs services are delivered within local political jurisdictions- but workers seek and find jobs in adjoining areas and businesses attract workers from across and outside government jurisdictions.
- Sector-based, regional, and “cross discipline” coordination needs to be incentivized and rewarded to meet industry, student, and job seeker demands.
State Board Strategic Plan

Strategy for Shared Prosperity

- **Regionalism** — Encouraging partnership and collaboration amongst the local areas

- **Sectors Strategies** — Centering workforce training and opportunities on those industries that have been projected to grow or have replacement needs in California (regionally or Statewide)

- **Training** — Focus on credentialed training to prepare out-of-work individuals and increase the skills of incumbent workers

- **Career Pathways** — Putting workers and those looking for work on a trajectory that leads to careers that support individuals and their families
How Are We Getting There?

System Integration
- State Working Group
- Economic and Workforce Development
- Workforce Scorecard

Continuous Improvement
- Performance Measures
- High Performing Boards
- ETPL

Industry Alignment
- Sector Committees
- Expanding Apprenticeship/Earn & Learn
- Targeted Projects
The WIOA Opportunity

- Setting a State-wide vision and goals
- Aligning more stakeholders around a common vision and plan
- Creating strategies to get there together, and metrics to know when we’ve “arrived”
- Creating a “Year of Experimentation”
  - System Transformation
  - Innovation
  - Scale
  - Accountability
Developing the New WIOA Plan

- Refocussing the work of the State Board
- Tackling the BIG issues that move the needle on job creation, employment, and education
- Coordination at the State, Regional and Local Levels
- Creation of cross-system metrics
- Balancing flexibility with accountability
- Taking a “hybrid” approach to early implementation
- Incentivizing “risk taking” and new modes of service delivery that accelerate innovation
What We Hope To Achieve

- Improving the match between student/worker skills with regional labor market demands, **building the strength of regional economic drivers.**

- **Creating new models** of workforce and education services that can be replicated across the state, tailored to meet the most pressing community and labor market challenges of each region, and that **generate long-term improvements in the workforce development system.**

- Leveraging public investment with commitments from industry, labor, public, and community partners, **creating a “venture fund” for new ideas and strategies.**

- Developing systems that can quickly and nimbly adapt to the scale, pace, and volatility of the labor market, and that mirror the industry sectors that drive California’s economy.
